Located on approximately 1.4 acres with a new survey available, this property has No restrictions and is not subject to city taxes! This home allows you to immerse yourself in outdoor living as it showcases beautiful landscaping and features established and mature flora and fauna. Rhododendrons and a wood line frame the landscape with a wide range of perennials and wildflowers that have been planted to make this a welcoming home to the pollinators, birds and wildlife. Have backyard gatherings and experience outdoor living from the covered picnic shelter where you can enjoy the picturesque mountain views framed by the sunsets and twilight evenings framed by the stars. Upon entry, the residence offers a generous open-concept living room and formal dining area featuring vaulted ceilings with exposed beams. The space is enhanced by a brick fireplace, expansive windows, and a skylight that provides abundant natural light. Access to a sizable front porch offers opportunities for relaxation or entertainment. The kitchen located just off this area boasts an eat-in breakfast nook with room for a chest freezer as well as granite counters, an abundance of custom-built oak cabinetry, a built-in microwave, dishwasher, refrigerator and two ovens comprised of a wall oven and a stove for lots of cooking for holiday get-togethers and easy access to a side porch for grilling.
