Description

GREAT investment opportunity!! Here you have a storage facility with major expansion, development, and passive income potential.

This 35-unit storage facility (varying sizes) offers immediate and consistent cash flow in a great location. 34 units are currently rented, while one is being cleaned out. The potential to expand by approximately 60 additional units or other business ventures, offers a clear path to significantly increase income.

Designed for passive ownership and minimal upkeep, this property consists of well-maintained metal buildings and public

water. sewer, and power that could be utilized.

With strong local demand and limited competition, the existing units maintain steady occupancy, while the expansion potential creates an exceptional opportunity to scale revenue. There is enough room to add a whole row of units in the back, as well as other areas. In addition to adding more units, the property offers potential additional income streams, such as a car wash (which it has previously served as), laundromat, vending machines, or other complementary services (subject to approvals).

Further upside includes the ability to increase rents to market rates and/or introduce utilities to enhance value and attract additional tenant demand.

Whether you're looking for a low-maintenance, income-producing asset or a property with significant long-term growth potential, this opportunity delivers both.
