Description

One-level living with mountain views!

This spacious manufactured home sits on a wooded lot in the Lilly Addition, close to everyday amenities and outdoor adventures.

The open-concept layout connects the living room, dining area, and kitchen in one bright, airy space, providing an easy setup for everything from quiet evenings at home to holiday gatherings around the wood-burning fireplace.

The updated kitchen has stainless-steel appliances and inset lighting that brightens the workspace.

The primary suite is a private retreat at the end of the day. It has a walk-in closet with plenty of room for your wardrobe, and a large en suite bath with a soaking tub and a separate shower. Two more bedrooms share a hall bath and offer flexibility for guests, children, a home office, or a hobby room.

Durable hardwood-style flooring runs throughout the home, giving it a cohesive, low-maintenance look that stands up to busy households. New light fixtures in every room add a fresh, modern touch.

The spacious deck is made for outdoor living. Fire up the grill, host a summer cookout, or sip your morning coffee while taking in the mountain views.

Beyond the property, the allure of the great outdoors beckons, with an array of recreational opportunities just minutes away. Whether you're into hiking, mountain biking, picnicking, camping, or boating, you'll find yourself at the doorstep of adventure.
